ABOUT CYCLISTIC

Was conducted via DIVVY & the City of Chicago and was made available to us via Data License Agreement.

Consists of previous 12 months of data, from 1 July, 2022 to 30 June, 2023 and approximately 5.6 million data points.

Was conducted on a 1st party basis indicating high integrity.

THE DATA

DATA SHORTCOMINGS

1. Casual refers to any rides that weren't member rides.
2. Due to Consumer Protection laws, we can't see how many times customers made purchases.
3. We don't have access to distance rode per trip.
4. Some nulls and general errors with overall data.

SQL & Tableau.

Data with unknown errors kept.

THE PROCESS (cont..)

Subscription Count

Overall Riders

Total of 57,78,618 riders last year

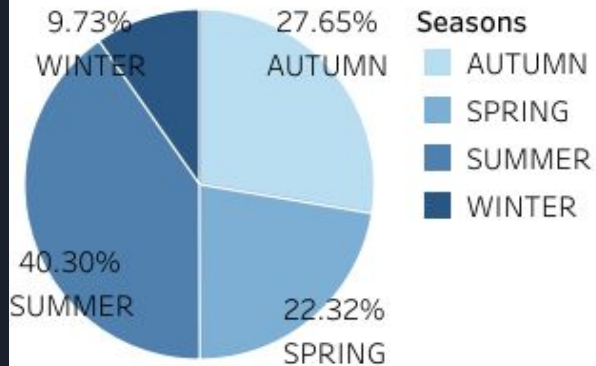

Monthly Riders

Busiest month was July - 8,23,416

Slowest month was December - 1,81,792

More members per month

Rides per season

Seasonal Comparison- Subscription Type

Seasonal Riders

Majority of Ridership comes from Summer
Massive falloff in Winter

Start Day/ Subscription Type

Daily Riders

Members ride more during the week
Casuals ride more on weekends

Start Day/ Subscription Type

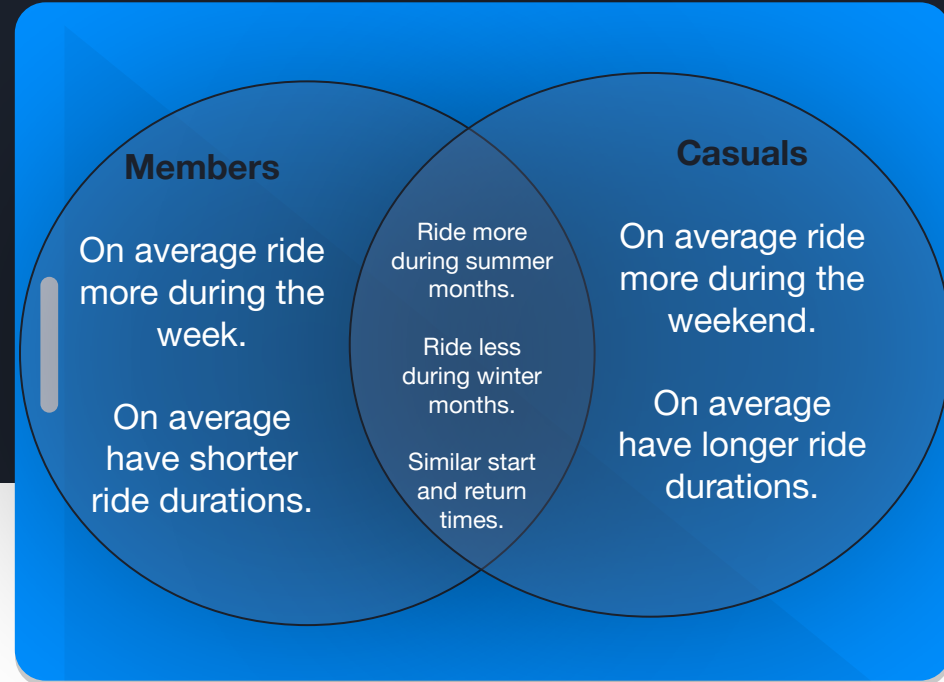

Average Ride Duration

Casuals ride longer on average
Members are under 14 minutes on average daily

Annual Benefits

1. Unlimited 45min rides.
2. Potentially more value per month for frequent riders.

INSIGHTS

OPTION 1

Make annual memberships include unlimited **3 hour rides**, instead of unlimited 45 minutes.

OPTION 2

Create in between tier for memberships, possibly **\$75 annually (\$6.25 monthly)**, that includes annual benefits only on weekends.

OPTION 3

Create in between tier for memberships, possibly **\$60 billed annually (\$5 monthly)**, that includes annual benefits only on summer months.
